

A vertical dashed line separates a light blue region on the left from a white region on the right. On the left side, there are two arrows pointing towards the dashed line: the top arrow points up and to the left, labeled $\partial_+ \phi_1$; the bottom arrow points up and to the right, labeled $\partial_- \phi_1$. On the right side, there are two arrows pointing away from the dashed line: the top arrow points up and to the right, labeled $\partial_- \phi_2$; the bottom arrow points down and to the right, labeled $\partial_+ \phi_2$.
